We **trust our lawyers** & give you **choice**

Nexa is the fastest growing legal services provider in the UK for a reason – we trust our lawyers and give you choice – as to how, when and from where you look after your clients.

We also offer the choice as to how you go to market and present yourself to clients and potential clients. If you want to develop business by using Nexa as your client facing brand that's fine – but it's also fine by us if you want to have your own unique client facing brand.

You’re an expert in providing legal advice to your clients so we let you concentrate on that.

Hope that sounds good to you!

We can introduce you to brand specialists, design agencies, website developers, PR agents, BD advisers, trademark attorneys etc. that we like and work with (**see Our Collaborators**) or you can work with your own network. It’s **your choice – we trust you** remember...

All we ask is that you **work within our systems like any other Nexa lawyer.**

Why Nexa?

With Nexa's modern business model, we strip back the overhead costs and, by being transparent and working collaboratively with you, we focus on delivering only what you require to practise without any unnecessary extras. This means we can maximise the amount of the fee that you receive and your clients get the very best of you.

Win win all round.

But with Nexa that's only half the story – we passionately believe that our consultant career offering for solicitors is a genuine alternative (and may well become the preferred alternative) to working in traditional partnership, private practice or as an employed in-house lawyer and we want you to believe that too. That's why we go way beyond just the basics in both practical support and our cultural environment.
